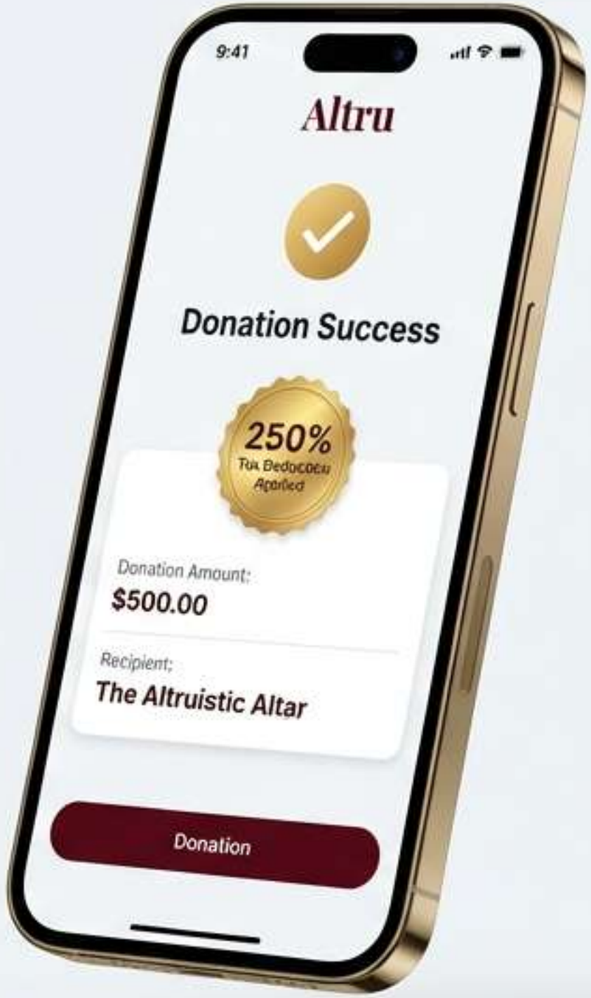
Redefining the Wedding Ang Bao

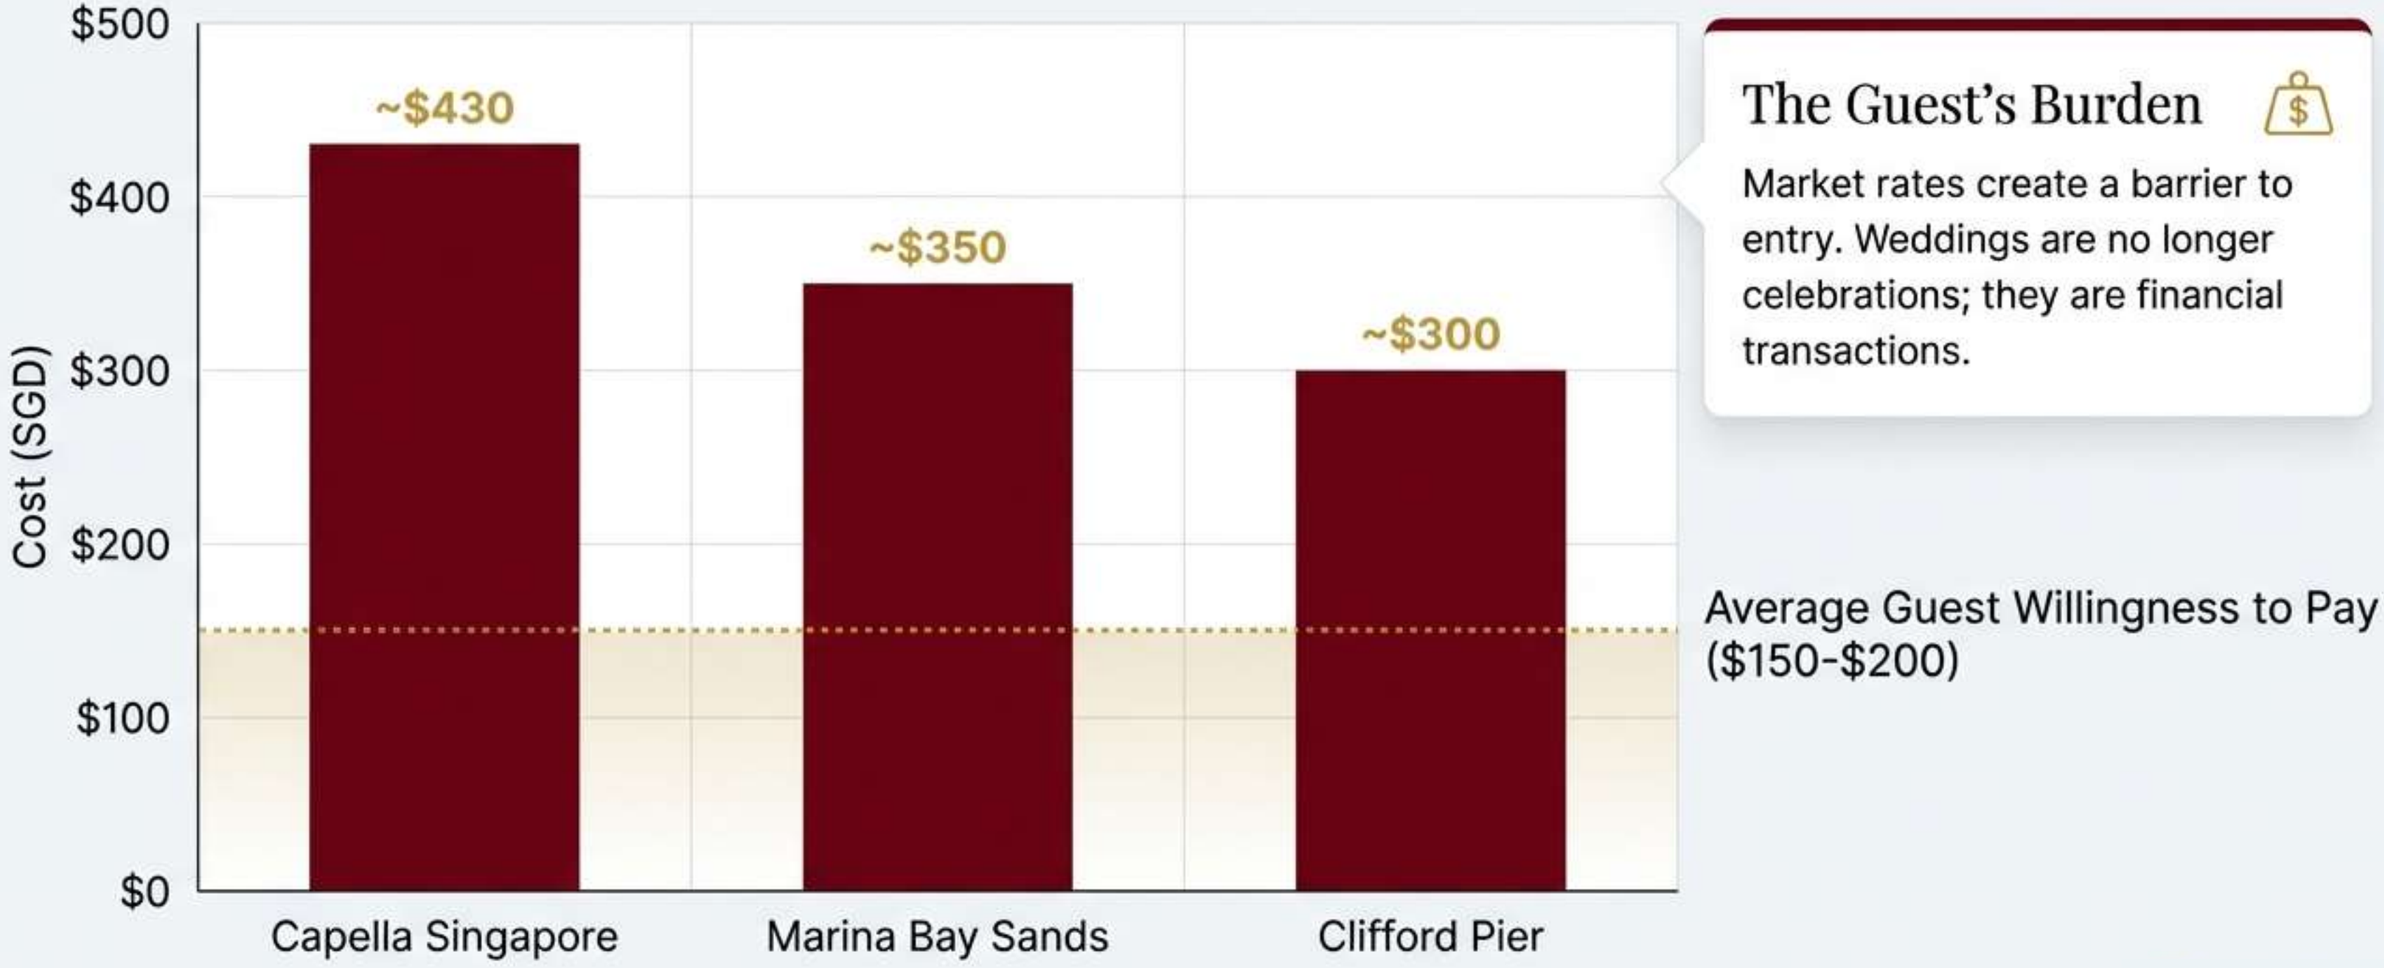
Turning "Table-Filler" Anxiety into Social Impact and Tax Efficiency.



A Business Pitch for a New Social Enterprise

The 2026 Reality: Wedding Inflation Has Broken the Tradition

2026 Breakeven Cost Per Guest



The Guest's Burden

Market rates create a barrier to entry. Weddings are no longer celebrations; they are financial transactions.

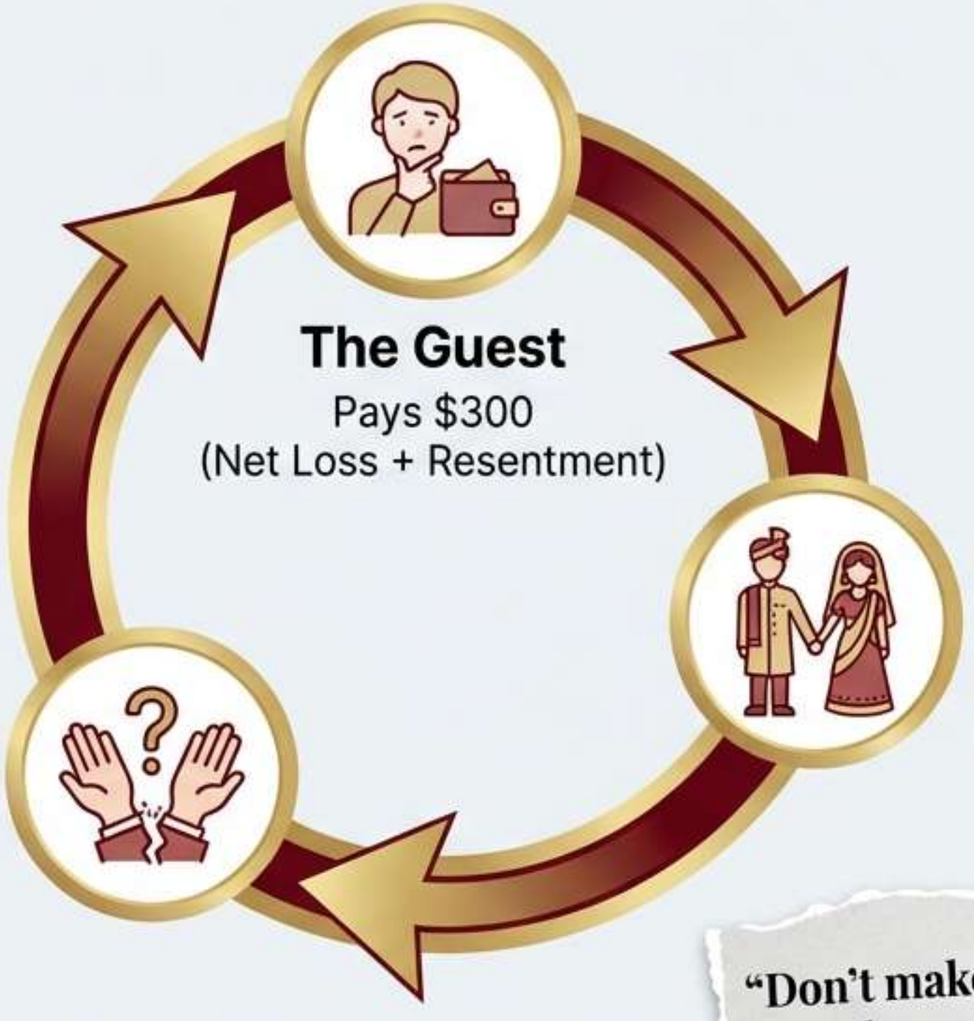
The ‘Lose-Lose’ Equation of Modern Banquets

‘I want to be happy for you affordably... keep it to S$100.’

– The Independent SG

‘Friendship should take precedence over one’s personal priorities.’

– The Straits Times



The Guest

Pays $300
(Net Loss + Resentment)

The Couple

Receives $300
(Net Zero after banquet costs)

The Relationship

Strained by transactional expectations

“Don’t make people fund your dream wedding.”

– Social Media Sentiment

The Innovation: A ‘Graceful Exit’ via Charitable Giving

1. Select.

Guest selects;
a) attends wedding and allocates a certain percentage to charity
b) declines banquet and allocates a token sum to charity

2. Verify.

Guest inputs NRIC for mandatory IRAS tax deduction.

3. Bless.

Guest receives digital certificate to present to couple.

A digital registry allowing guests to make a ‘Gift in Honor’ to an approved IPC in lieu of a physical cash packet.

NotebookLM

The Value Multiplier: The $100 Gift with $375 Impact.

A highly structured comparison table.

Scenario A: Traditional Ang Bao

- **Input:** Guest gives $300 Cash
- **Cost to Guest:** $300
- **Tax Benefit:** $0
- **Social Impact:** Neutral

Scenario B: The Altru Method

- **Guest creates $300 gift link**
- **Couple keeps $150 and donates $150 to charity in their name**
- **Social Impact:** High

$375 Tax Relief Value

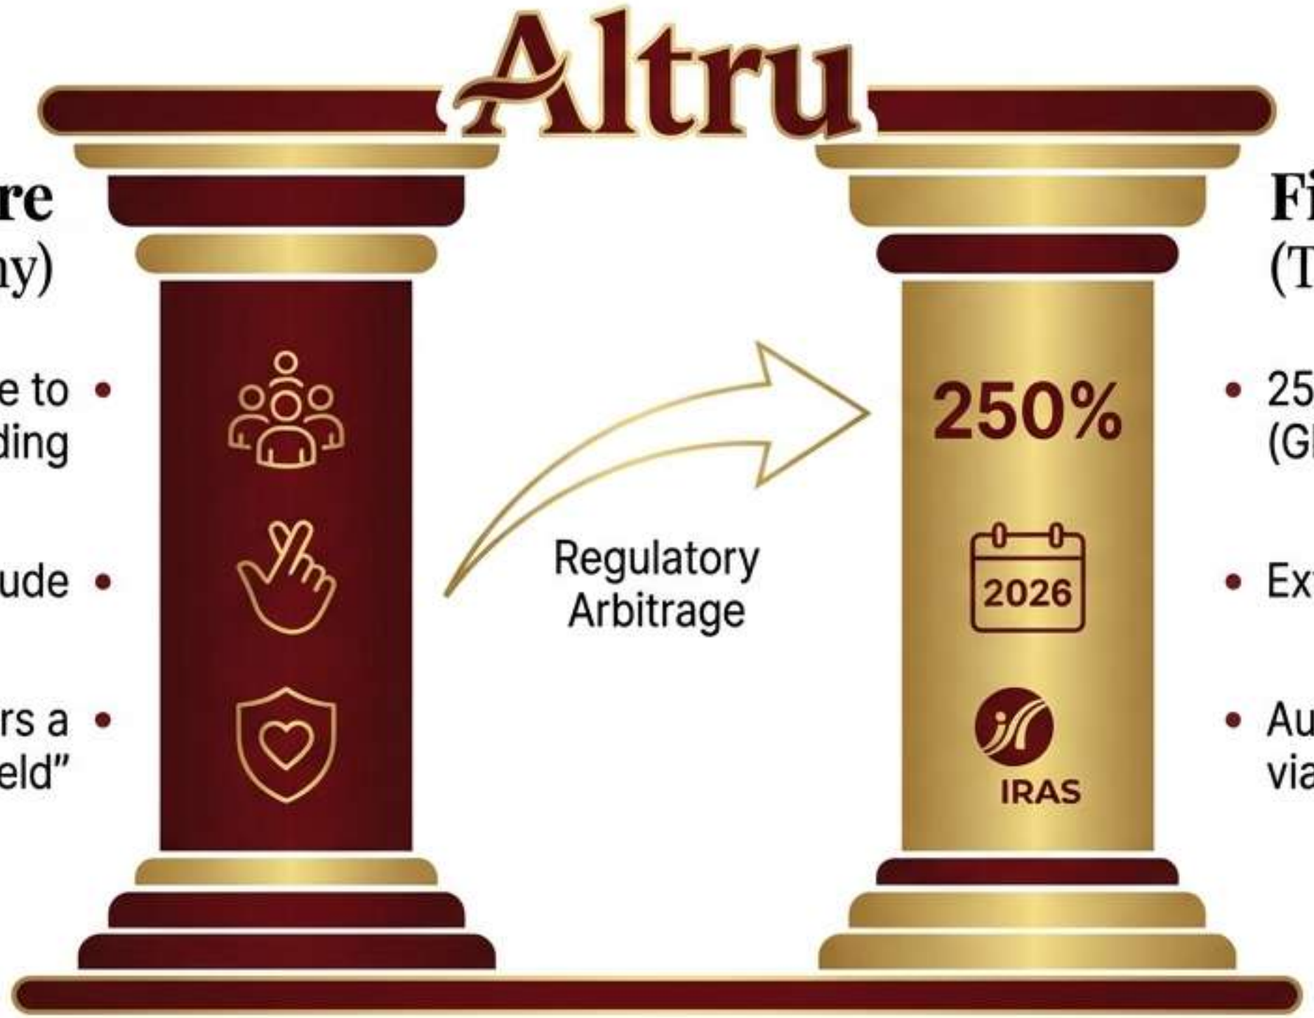
250% Tax Deduction

Tax Deduction (250%):
$375 Tax Relief Value

2.5x Tax Deduction extended until Dec 31, 2026 (IRAS). Deductions follow the Payer (Guest).

NotebookLM

Why Singapore is the Perfect Launchpad



Cultural Pressure
(The 'Face' Economy)

- High pressure to maintain social standing
- Direct refusal is rude
- Charity offers a "moral shield"

Fiscal Policy
(The 'Tax' Economy)

- 250% Tax Deduction (Globally Unique)
- Extended to 2026
- Auto-Inclusion Scheme via IRAS

FinTech meets High-End Wedding

Regional Viability: Adapting to the ‘Hongbao’ Belt

China Strategy:
Focus on Social Signaling (‘Ostentatious Philanthropy’)

Similar ‘Face’ dynamics; Tax deductions exist (up to 30%) but lower multiplier than SG.

Expansion Markets:
Viable in regions with strong Confucian Gift Exchange norms.

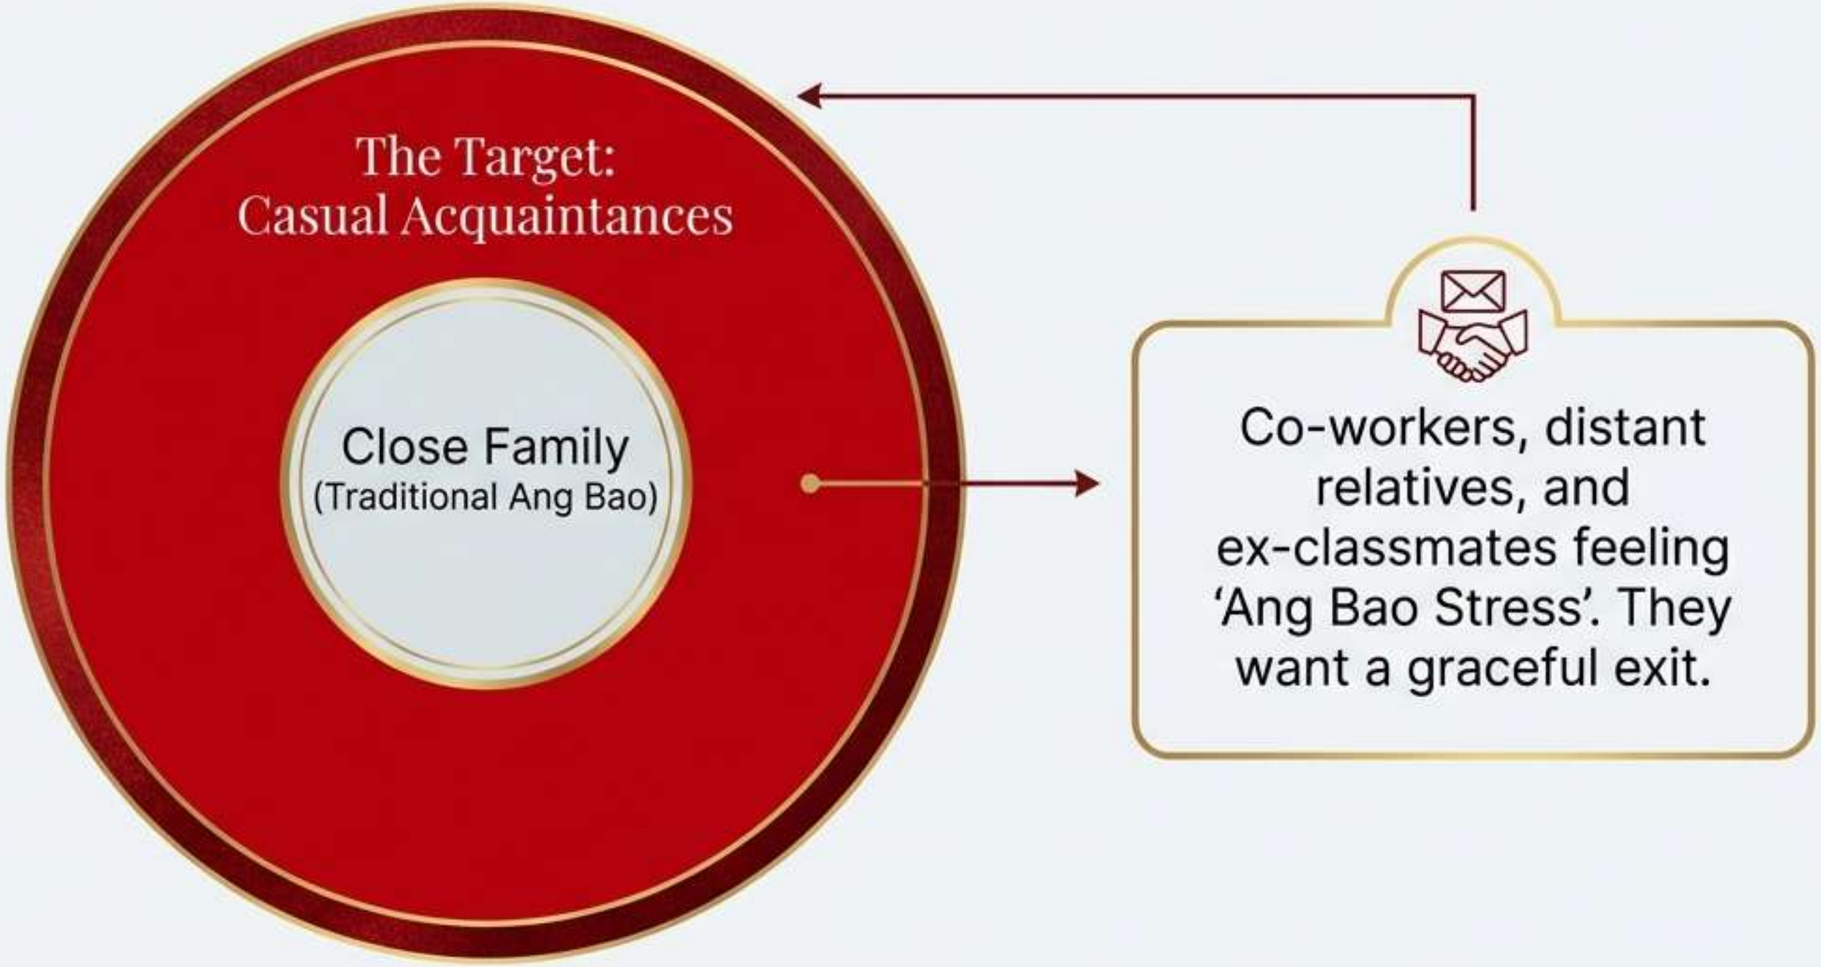
Target Audience: The ‘Casual Acquaintance’



“Don’t pay for a seat, pay for a cause.”

NotebookLM

Sustainable Revenue: The '30/70 Rule' Compliance

Maintaining a social enterprise model while ensuring financial viability.

100% of Donation

85% 15%

Strict adherence to Charities Act

Platform Fee: 15% (Well under the 30% legal cap)

Listing Fee: **Premium** placement for **Charities on Registry**

NotebookLM

Trust Architecture & Security.

Gross Payment Rule

Funds flow directly to Charity accounts. No deduction at source.

PDPA Compliant

Secure handling of NRIC/FINs solely for IRAS tax filing.

Licensing

Code for Commercial Fund-raisers subscriber.

Transparency

Real-time impact tracking for couples.

NotebookLM

Maximizing Utility for High-Net-Worth Guests

Leveraging specific IRAS provisions for high-net-worth guests

Unutilized Deductions

If the 250% deduction exceeds statutory income, the balance can be carried forward for up to 5 years.

Source: IRAS

Identity Requirement

Mandatory NRIC input ensures eligibility. Anonymous donors cannot claim tax relief.

Source: IRAS

Operational Roadmap to Launch

Phase 1: Structure

Incorporate Pte Ltd & Setup Payment Gateway

Phase 2: Compliance

Subscribe to Code for Commercial Fund-raisers & Secure Pilot IPCs

Phase 3: Tech Build

Develop RSVP integration & MyTax Portal export

Phase 4: Launch

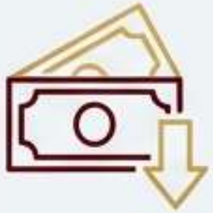
Apply for Public Appeal Permits & Partner with Planners

NotebookLM

Mitigating the “Face” Risk

The Concern

Will couples feel insulted asking for donations?

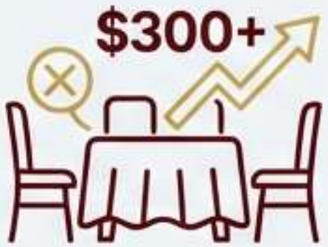


Will they lose cash flow for the banquet?

The Altru Strategy

1. Position as an Option, not a replacement.

2. Target “Table Fillers”—couples save the sunk cost of **empty seats ($300+), outweighing lost cash gifts.**



> “We provide a graceful exit for the guest, and cost savings for the couple.”
